**Vision Zero is a global vision of prevention**

Vision Zero is a global vision of prevention A vision that all occupational accidents, work-related injuries and illnesses can be prevented Focus on building a prevention culture that integrates safety, health and well-being A process - rather than a goal - A mindset The foundation of Vision Zero is 7 golden paths - a set of values

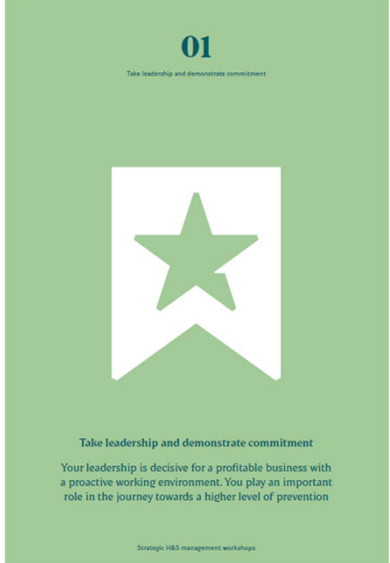

## Seven paths

1. Take leadership and demonstrate commitment
2. Identify hazards and control risks
3. Define goals and develop programs
4. Create a safe and healthy system that makes you well organized
5. Ensure optimal safety and health in machinery, equipment and workplaces
6. Upgrade qualifications and develop skills
7. Invest in people and motivate through participation and involvement

Take leadership and demonstrate commitment

Your leadership is decisive for a profitable business with a proactive working environment. You play an important role in the journey towards a higher level of prevention

Strategic H&S management workshops

**01**  
Take leadership and demonstrate commitment

**What are your leadership tasks?**

- Act as role model – both in word and action
- Ensure sufficient resources to H&S (time, competence, communication and finance)
- Acknowledge good H&S behavior and address misconduct
- Share knowledge about best H&S practices and encourage proactive thinking across the organization
- Communicate regularly about H&S goals and engage in the dialogue about how to progress
- Integrate the proactive H&S mindset in all business activities, including procurement, planning, HR, communication and management

**Actions & Tools**

- H&S review checklist to conduct regular H&S reviews and enter employee dialogues to understand H&S risks at the operational level and promote good H&S behavior
- H&S meeting agenda to integrate H&S in formal and informal meetings, and address opportunities for improvement at the meetings
